

Budget Billing Application

This Agreement in no way alters any policies of the Clayton County Water Authority regarding the provision of service to customers. It only provides for an alternative method of payment by the customer.

As evidenced by customer's signature affixed at the end, the customer acknowledges having received a copy of this agreement and agrees to abide by its conditions.

Budget Billing Conditions

- * Budget Billing is based on volume not rates.
- * Customer must keep account current. Three consecutive late fees and/or on disruption of service for non-payment disqualifies customer for budget billing.
- * Customer may be reinstated to budget billing, upon customers after twelve months good payment history. Good payment history is no more than three late payments and/or no service interruptions for non-payment.
- * Customer's over or underpayment as determined at April 30 each year will be prorated equally over the next twelve months, beginning May 1 of each year.
- * Rate adjustments affect current billing only. Rate adjustments may be implemented any time during the twelve months period.
- * Customers must bring account to a zero balance when:
 - A. Customer discontinues service with Clayton County Water Authority
 - B. Service is terminated due to non-payment
 - C. Customer elects to be removed from the Budget Billing Program

In the event that the Clayton County Water Authority Board of Directors elects to discontinue budget billing, such termination will be effective at the end of the current budget billing period. In such an event, the difference between actual usage and usage billed may be prorated equally over the succeeding twelve months with one twelfth added to the actual monthly bill.
