As with any major emergency, Clayton County Office of Emergency Management will remain vigilant and proactive to ensure our county is prepared in planning, responding, and mitigating this threat. Our Emergency Services Physician has made this a top priority, and will continue to coordinate with state and federal officials to provide up to date services and information.

Protective Measures

Keep your school safe

- Practice good hygiene
- Encourage frequent hand washing for at least 20 seconds
- Encourage students to use hand sanitizer as they enter the classroom
- Create reminders for staff and students to avoid touching their faces
- No food sharing
- Ensure staff practice strict hygiene
- Frequently disinfect hard surfaces such as doorknobs, tables and desks

Keep your workplace safe

- Encourage frequent handwashing for at least 20 seconds
- Stop handshaking. Consider other methods of greeting
- Disinfect high use surfaces such as telephones, desks, chairs and doorknobs.
- Frequently disinfect high use areas such as lobbys, waiting areas and restrooms
- Limit in person group meetings when possible. If necessary, limit to 10 or less.
- Assess the risk of business travel
- Encourage employees to stay home if they are sick

For more information you can go to
<https://www.cdc.gov/coronavirus/2019-ncov/downloads/workplace-school-and-home-guidance.pdf>

Encourage everyone to wash their hands at frequent intervals

Keep your home safe

- Encourage frequent handwashing for at least 20 seconds
- Create reminders for family members to avoid touching their faces
- Clean with hand sanitizer at the door
- Frequently disinfect tables, doorknobs, and handrails
- Consider avoiding social gatherings

Homes with seniors 65+

- Wash hands before and after interacting with seniors such as feeding, or providing direct care to the person
- Avoid social gatherings
- Frequently disinfect hard surfaces such as tables, chairs, desk and doorknobs

Homes with sick family members

- Give sick members their own room and keep the door closed when possible
- Ensure family members practice strict hygiene
- Limit caregiver to one person
- Consider maintaining a distance of 6 feet from the sick family member.
