

Request For Tap On The Go Team

Clayton County Water Authority's Tap on the Go team participates in community events to educate customers about the value and safety of their drinking water. These CCWA Ambassadors bring our 100 gallon portable water tank filled with ice cold tap water to share using refillable bottles or cups. They explain how we produce safe, reliable drinking water and how we test to ensure it is safe for our customers. We can only guarantee providing water for approximately 500 people.
