

Monitor Your Water Use with Eye On Water

With Eye On Water, you can easily track your daily water usage, receive leak alerts, and access tools to help you use water more efficiently. This online portal connects directly to your CCWA account, giving you a quick view of your water consumption and alerting you to potential leaks before they become a problem.

Get started in a few easy steps:

1. Visit <https://eyeonwater.com/signup> on a supported web browser.
2. Enter your service area zip code
3. Enter your billing account number
4. Enter your email address.
5. Create and confirm password
6. Check your email for a confirmation message from Beacon and verify your email address by clicking the link.

Once verified, you can sign in and start monitoring your water use with your new Eye On Water account.
